ABSTRACT

A study was conducted at Miami-Dade Community College (M-DCC) to determine the placement status of 1981-82 graduates from the college's occupational programs. Data for the study were obtained from five sources: a survey of 1,497 program graduates; Department of Labor and Employment Security Files; State University System files; an employer follow-up survey; and a job placement log from the college's job placement offices. Study findings, based on these data and responses from 553 program graduates, revealed that: (1) there were 1,606 occupational graduates for 1981-82 within 107 occupational programs, 53% of which had 5 or more graduates; (2) over 80% of the responding graduates gave positive ratings to program training, course content, instructor preparation, and library services; (3) 55.2% of the graduates reported receiving financial aid for 1981-82; (4) 88.6% of the graduates found their jobs through their own initiative or with the help of friends and relatives; (5) the modal hourly salary was between $8 and $10; and (6) MDCC training helped many graduates obtain a job, perform occupationally, and advance in their positions. The bulk of the report consists of survey data for the college as a whole and for the four college campuses. Appendices include the student and employer questionnaires, and a placement and follow-up report form. (HB)

Highlights of the Report College-Wide

*** There were 1,606 occupational graduates for 1981-82.

*** Of the 107 occupational programs, 57 (53.3%) had five or more graduates in 1981-82.

In the follow-up of occupational graduates:

*** Instructor preparation was rated good or very good by 89.0% of the responding graduates.

*** Course content received an 81.6% positive rating.

*** 81.1% of the graduates were well satisfied with the program training received.

*** Advisement and Guidance was perceived to be adequate or better by 76.3%.

*** Library services received the best rating (81.6%) of all college services rated.

*** Good was the mode for registration services.

*** 55.2% of the questionnaire respondents reported receiving financial aid in 1981-82.

*** Placement, learning laboratories, and audio-visual services were used by a greater number of students this academic year than the last.

*** M-DCC training helped many graduates obtain a job, perform occupationally, and advance in their positions.

*** The modal hourly salary was $8.01-$10.00.

*** 88.6% of the graduates found their jobs by their own initiative or with the help of others (friends, relatives, etc.)

Placement and Follow-up Report:
Graduate Survey Responses and
State Defined Placement Status of Occupational Programs
for the Academic Year 1981-82

Introduction: Characteristics of the 1982 Occupational Graduates

There were 1,606 occupational graduates for 1981-82. This report deals primarily with those programs showing at least five graduates and five questionnaire responses. Of the total 107 occupational programs, 65 (60.7%) were Associate in Science programs and 42 (39.3%) were Planned Certificate programs. There were 70 programs with fewer than five respondents. Of these 70 programs, 50 of them had fewer than five graduates. This latter figure represents 46.7% of all occupational programs. The eleven programs having the highest number of graduates, College-wide, in descending order are Nursing-ADN (135 graduates), Early Childhood Education -- program CH (102), Nursing - LPN to RN Transition (91), Electronics Technology (64), Nursing - ADN Jackson (62), Business Data Processing Computer Programming (58), Executive Secretary (48), Travel & Tourism (46), Early Childhood Education - program 94 (46), Dental Hygiene (42), and Funeral Service Education (42).

College-wide, 64% of the occupational graduates were females. North Campus had an even mix of female to male graduates and all other campuses showed greater percentages of females, particularly on the Medical Center Campus (86%). Female graduates were more than twice as likely to respond to the survey as their male counterparts. Of the programs graduating the most students, the health, education, office and travel programs had a higher proportion of females to males. In the electronics and mortuary programs,

the largest proportion of graduates were males, while computer technology was equally split between the genders.

Graduate survey responses show sharp similarities between College-wide to campus data. Differences among campuses and College-wide are evident with regard to hourly salary.

Purposes and Objectives

This Placement and Follow-up report is directed principally at program managers, placement officers, and faculty to aid in program review and planning. Occupational graduates for the 1981-82 academic year are traced to determine their placement status by program. Graduates' ratings of major courses, ratings of college services, assessment of helpfulness of training, salary categories, and help in securing job are some data elements secured. Placement and follow-up tasks are mandated by the federal government and the State of Florida. These edicts are more directly conveyed to the community colleges by way of the State Department of Education Division of Community Colleges.

Guidelines are closely adhered to and results are reported periodically. Placement status priorities are established by legislative decision. For occupational awards, if the graduate is both working in a related field and continuing education, priority is accorded to employment and the graduate is categorized for reporting purposes as employed related. However, for Associate in Arts awards, priority is given to continuing education when the graduate is both employed and attending school. Priorities are established

because placement status must be unduplicated. Each graduate can have only one unique placement status. Other data included in this report are graduates' evaluation of college needs, and employer evaluation of graduates' performance.

Method and Results

The data for this report were obtained from five data sources:

1. Survey of Former Students Questionnaire (Appendix A)
   Data essential in filing the annual State report are included in this questionnaire. Some of these data categories are current educational status, employment relationship to training, employment renumeration, permission to contact employer to evaluate M-DCC training, and opinion of graduate with regard to the quality of M-DCC guidance, placement, and training services. The return rate was the consequence of three survey mailouts. "Non-returners" included out-of-country, address unknown, late, and non-responsive graduates.

2. Department of Labor and Employment Security Files (Commerce data)
   The social security number of the graduate is matched against the corresponding number in the Commerce file. A match indicates that the individual is employed. Commerce data represent one type of information received through the Feedback System established by the State. Through this system,

employment data are further defined by industry of employment, number of hours worked per week, and salary earned. The Commerce data through the Feedback System is crosswalked with college program codes and provides a means of determining relationship of the job to training.

3. State University System (SUS)

The social security number of the graduate is matched against the State University System (SUS) files. A match indicates that the graduate enrolled in a university within Florida the immediate succeeding fall semester after graduation from the lower division college. The shortcomings of tracing students in universities are two-fold:

a) if the graduate is attending a private in-state college or an out-of-state college, he is not traced and

b) should he matriculate after the fall semester, he is also not tracked. Hence, data regarding numbers of students continuing education is invariably lower than that which may actually exist.

4. Employer Follow-up Form (Appendix B)

Comments from employers regarding the performance of graduates employed in a related field are used in the report. The return rate for the employer rating of employees was dependent upon a number of factors.

The individual:

a) received the Survey of Former Students through the postal system, and returned it,

b) gave permission to Institutional Research to contact his employer for the job rating,

c) works in a field related to his training,

d) notated the correct and complete address of the employer.

The employer:

a) elected to respond to the survey,

b) returned the survey in time for processing.

5. Job Placement Log

In order to reduce the number of graduates with placement status unknown, managers of occupational programs collect employment data from their students each major semester. The campus job placement offices also collect these employment data. The data are consolidated into the placement master file and are called forth when needed. Should the graduate not respond to the graduate survey and should data be absent from the Feedback System, the job placement log data are used.

Placement Status

Placement status categories follow the State of Florida Division of Community College AA-2C Report form (Appendix C). The most significant data categories are (5) employed in field and (12) continuing education. Self-reported employment relatedness to training data are obtained from item 3 of the student questionnaire (Appendix A). This latter response is given precedence over information from the Feedback System for it is the most current data available. If there is no questionnaire response to this item, SUS and Commerce data are used. If no data exists from these sources, the job placement log data are tapped.

Tables 1 through 4 show the placement status of the 1981-82 occupational graduates of M-DCC by program by campus. Only programs with five or more graduates are included. The placement status categories are self-explanatory with the exception of "Other Employment." This latter category includes graduates who are working in fields unrelated to their training as well as those whose field relatedness was indeterminate. The Feedback System categorizes employment by the Standard Industrial Classification code. The SIC codes by industry rather than by the job itself. Oftentimes the nebulousness or broadness of the industry allows for a divergence of interpretations and so render its field relatedness placement for report purposes imprecise. Persons falling into this "void" are grouped into the "Other Employment" category. The modal categories (greatest numbers) are enclosed in brackets for each program. For State purposes, occupational graduates who have acquired employment within the field of their training or who are continuing their education are considered to indicate program "success." For career programs, the most desirable category is related employment.

In reviewing the data for Tables 1-4, bear in mind that:

1. These data represent only those programs with 5 or more graduates.
2. Related employment data are firm data.
3. The "Other Employment" data are either reported to be unrelated by the questionnaire respondee or were so designated because a definitive determination of relatedness was impossible.

Note: Brackets indicate modal category.

4. The continuing education category may appear smaller than actually exists due to restrictions concerning dual category membership. The priority for categorization of occupational graduates is related employment. Thus, should such a graduate be both relatedly employed and attending the SUS, he is assigned the unique classification of employed related.
5. Unemployed and not seeking employment are self-reported from questionnaire returns. These questionnaires were first sent in March 1983 and so the status of these respondees may have changed since then.

Summary of Questionnaire Data

Tables 5-9 are data collapsed from the Survey of Former Student questionnaire college-wide and by campus. All summaries include only programs for which there were at least five graduates or five responses. For those programs that did not fit the criteria, a list showing program title and number of graduates was compiled. This list is found on page 75.

College-wide (Table 5), major courses were rated as good or above for all items rated (instructor preparation, course content, level of presentation, class size, program training received); at least 77.6% of respondees chose the good or very good possibilities. Graduates placed instructor preparation in particular high regard with an 81.6% rating of good or better. Of the college services that were substantially used (advisement/guidance, library, registration), 76.3%, 93.6%, 84.2% respectively of graduates assessed the quality of service to be fair or better. As was true in previous years,

placement services were the least used by graduates. More than one-fourth of the occupational graduates did not utilize the services of the audio-visual department or the learning laboratories during their tenure as students at Miami-Dade. This is not to say that audio-visual aids were not used in classroom instruction. Students may have interpreted the questionnaire item to mean personally charging out items in their own names. The learning laboratories may not have been needed as supplements to classroom instruction for a number of students or the opportunities may not have been maximized.

Three selected questions were included in the graduate survey summaries aside from rating of major courses and services. Among the students who responded to the question "how did M-DCC training help you in your job?", sizable numbers saw their education as being helpful in more ways than one. Hence, multiple responses were recorded. A second question concerned salary. The modal hourly salary, college-wide, lies in the $8.01-$10.00 range (24.7%). There were 22.3% of graduates who were working below the minimum pay category; 48.6% were earning between $6.01-$10.00. On the upper end of the salary continuum, 4.1% were categorized as receiving $12.01-$14.01 up. Whether these hourly salaries were entry level salaries could not be determined. Figures 1-6 are graphic representations of Table 5. Figures for all of these summary data follow the associated tables.

By campus (Tables 6-9 and Figures 7-30), modal salary ranged from below minimum to $8.01-$10.00 per hour. Medical Center Graduates' fairly high salaries were instrumental in elevating the college-wide salary mode. With the exception of hourly salary data, all graduate ratings and responses by campus (major courses, college services, training help in job, help in finding job) are mirror images of the college-wide summary.

(MULTIPLE RESPONSES)

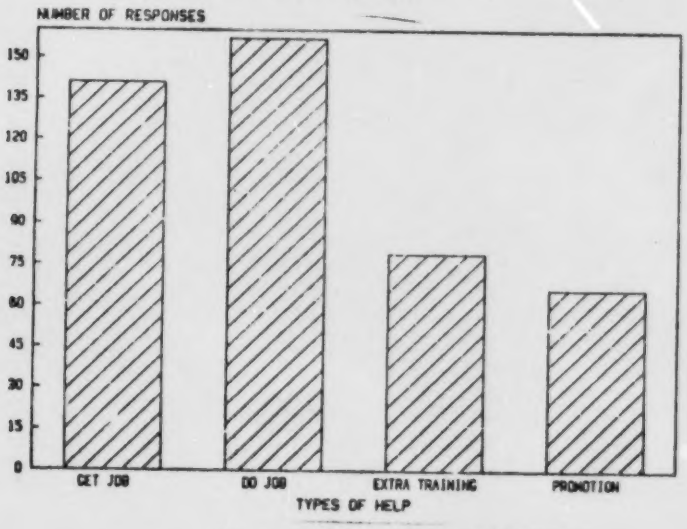

Figure 29 HOURLY SALARY
MEDICAL CENTER

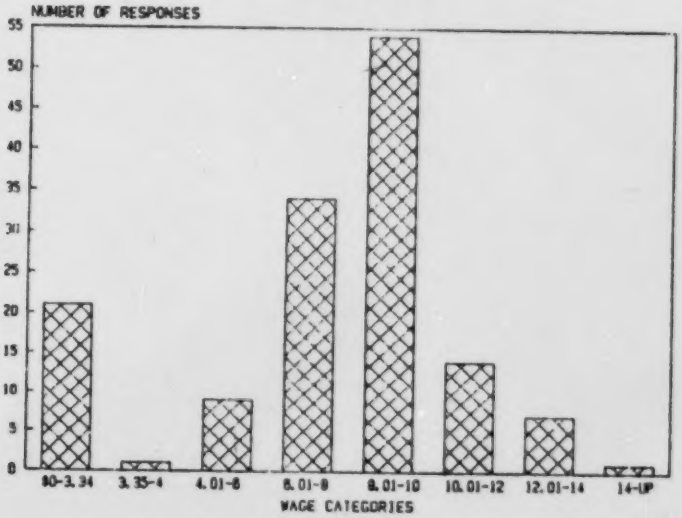

Figure 30 HELP IN FINDING JOB
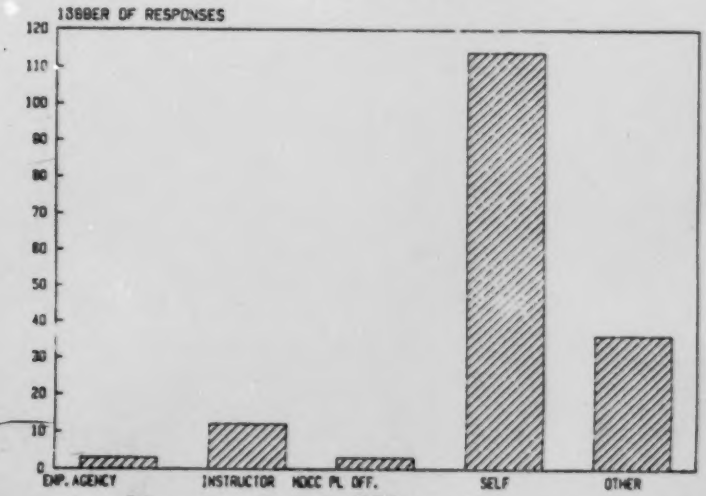
MEDICAL CENTER



The majority of graduates obtained their jobs as a result of their own efforts or through the help of relatives, friends or others (88.6%). Employment agencies, course instructors, and the M-DCC Placement Offices en toto helped 11.4% of graduates secure jobs. The high "not used" (55.2%) indicator in rating the services of the M-DCC Placement Offices may be due to the nature of the type of jobs (mainly part-time, temporary) that are offered through that office. While many graduates may not have used the services in securing employment after graduation, 45.8% of graduates used the placement office services while they were students. Placement services were used by greater numbers of students on North and South Campuses this year than in the previous year.

Graduate and Employer Responses

Graduates were asked for their suggestions concerning how M-DCC could be improved for future students. Comments from this group ranged from terse to several pages. Because of the constraints of data summarization comments were often reduced to abbreviations, and fragments of sentences. Care was taken to preserve the essence of the comment. While improvement suggestions were requested, compliments were often offered. But because of space limitations, many positive remarks were omitted.

Some notable comments made which have application college-wide or across programs are:

- Impose higher academic standards
- More on-hands, in-field training
- Rigorous help in obtaining jobs in training field

- Better articulation and transfer guidance
- Better registration procedures
- Update methods and equipment
- Realistic application of theory
- Emphasize essential academic skills
- Solid background for transfer is essential

Recall the limitations cited on p. 4-5 concerning the employer survey. Add to it evaluations by employers with no comments. Whatever comments were made were recorded. Unlike the graduate comments which were more generalized, employer comments were specific to the individual. Where no suggestions were forthcoming from either the graduate or employer, it is assumed that the program was deemed to be at least satisfactory.

GRADUATES' SUGGESTIONS FOR IMPROVEMENTS	EMPLOYERS' COMMENTS
BDP computer prog. More equipment, security, practical in-field information. In BDP emphasize computer accting, electronics, business, & math. College fees are too high. Need to keep up with the changing languages of today. Upgrade quality of evening instructors. Be serious about your educational goals. More student activities, better intramural sports, better counselors. Help students obtain jobs in their fields. Have better trained advisors. I really think M-DCC is a great college & very helpful. More lights & better security; dress code. Have a course that explains every BDP course available. N=16	Exceptionally bright individ. N= 1

GRADUATES' SUGGESTIONS FOR IMPROVEMENTS	EMPLOYERS' COMMENTS
Require more math and heavier content output. Prepare students for shock of univ. courses. More classes in evenings. Upgrade standards for entrance. Update electronic course content. Acad requirements should relate directly to goals. Poor math for electronics tech. transfer. Better job placement. Improve quality of the teachers. General advisors need more specialized training. More transfer guidance. Realistic job related studies instead of theory. Schedule classes according to times preferred by students.	More emphasis on electro-mechanical assembly. Typifies what we would like every applicant to represent.

Survey of Former Students
Office of Institutional Research
Miami-Dade Community College

NOTE: This report is authorized by law (20 USC 2312 and 20 USC 2391). While you are not required to respond to this survey, your cooperation is needed to insure that the results of this effort are comprehensive, reliable, and timely.

DIRECTIONS

Most items can be answered by checking the appropriate box ☑. Where other information is requested, please fill in the blanks.

1. What is your current educational status?
8
- [1] Currently attending school.
- [2] Not currently attending school.

2. What is your current employment status?
9
- [1] Employed Part-time
- [2] Employed Full-time, not in military service
- [3] Employed Full-time, military
- [4] Unemployed and looking for work
- [5] Not in the labor force (Not employed and not seeking employment).

IF CURRENTLY EMPLOYED GO ON TO QUESTION 3. IF NOT, GO DIRECTLY TO QUESTION 10.

3. Is this job related to the courses you took at Miami-Dade?
10
- [1] Yes, it is directly or closely related.
- [2] No, it is only slightly related or not related at all. If No, why not?

11
- [1] Already working with present employer.
- [2] Not sufficiently qualified for job in my field.
- [3] Preferred to work in another field.
- [4] Found better paying job in another field.
- [5] Could not find a job in my field without relocating.
- [6] Continuing education
- [7] Other (Specify) _____

_____

4. How has the training you received at Miami-Dade helped you in your present job? (check all that apply)

		[1] Yes	[2] Not Applicable
12	Helped me get the job initially	☐	☐
13	Helped me do the job	☐	☐
14	Helped me do the job but additional training was required.	☐	☐
15	Helped me get a promotion or raise.	☐	☐

5. What is your current salary before deductions? (Do not add overtime.)

16-22 $ _____ per _____.

6. The salary in the preceding item is based on
23-24 _____ hours per week employment.

7. Please provide the following information on your present job: (PLEASE PRINT)

Name of Company/Firm (if self-employed, write "self")

_____
Mailing Address

_____
City State Zip

_____

Immediate supervisor: _____
Last Name First Name Middle Initial

25-26
Your Job Titles _____

_____

Your Job Duties _____

_____

8. May we contact your employer to ask for comments on how well Miami-Dade prepared you for your job?

27 [1] Yes
[2] No

9. Who helped you find your current job?

28 [1] Employment Agency
[2] One of my instructors
[3] Miami-Dade Placement Office/Activities
[4] No one - I found it by myself
[5] Other (friend, relative, etc.)

10. Do you plan to return to M-DCC?

29 [1] Yes
[2] No

11. Please give an overall rating of the courses that you took in your **major** field of study.

		Very Good	Good	Fair	Poor	Very Poor
30	Instructor Preparation	[1]	[2]	[3]	[4]	[5]
31	Course content	[1]	[2]	[3]	[4]	[5]
32	Level of presentation	[1]	[2]	[3]	[4]	[5]
33	Class size	[1]	[2]	[3]	[4]	[5]
34	Training received in this program	[1]	[2]	[3]	[4]	[5]

12. Please rate these college services according to how they fulfilled your needs.

		Very Good	Good	Fair	Poor	Very Poor	Not Used
35	Advisement/ Guidance	[1]	[2]	[3]	[4]	[5]	[6]
36	Library	[1]	[2]	[3]	[4]	[5]	[6]
37	Registration procedures	[1]	[2]	[3]	[4]	[5]	[6]
38	Financial aid	[1]	[2]	[3]	[4]	[5]	[6]
39	Placement services	[1]	[2]	[3]	[4]	[5]	[6]
40	Audio Visual services	[1]	[2]	[3]	[4]	[5]	[6]
41	Learning labs	[1]	[2]	[3]	[4]	[5]	[6]

13. Do you feel that you achieved your educational goal at M-DCC?

42 [1] Yes
[2] No

IF CURRENTLY CONTINUING YOUR EDUCATION, GO ON TO QUESTION 14. IF NOT, GO DIRECTLY TO QUESTION 18.

14. What is the name of the college or university you are attending?

43-53 _____

15. Are you attending?

54 [1] Full-time
[2] Part-time

16. Did you have problems transferring from Miami-Dade to this institution?

55 [1] Yes
[2] No

17. How would you rate the preparation for continuing your education that you received at Miami-Dade.

56 [1] Very Good
[2] Good
[3] Fair
[4] Poor
[5] Very Poor

18. What improvements could be made at Miami-Dade to help future students?

_____

_____

_____

Thank you for your cooperation. Please return this survey in the envelope provided. If you have any questions, contact Anne Baldwin at Institutional Research, Miami-Dade Community College; Phone: (305) 596-1238.

Employee's Name:

EMPLOYER FOLLOW-UP FORM

1. VOCATIONAL TRAINING EVALUATION

Please rate the vocational training received by the individual in the following areas:

	Very Good	Good	Average	Poor	Very Poor
a. Technical knowledge	☐	☐	☐	☐	☐
b. Work attitude	☐	☐	☐	☐	☐
c. Work quality	☐	☐	☐	☐	☐
	(5)	(4)	(3)	(2)	(1)

2. OVERALL RATING

What is your **overall** rating of the vocational training received by this individual as it relates to the job requirements?

Very Good	Good	Average	Poor	Very Poor
☐	☐	☐	☐	☐
(5)	(4)	(3)	(2)	(1)

3. RELATIVE PREPARATION

As a result of this person's vocational training, how would you rate his or her preparation in relation to other employees in his or her work group who did not receive such training.

☐ No basis for comparison
(5) ☐ Individual is better prepared
(3) ☐ Both are about the same
(1) ☐ Individual is less prepared

4. If and when the need arises, I would be willing to hire additional employees who complete the same or similar vocational programs.

☐ Yes ☐ No

5. Remarks: _____

RESPONSE SHEET

Institutional Research is interested in providing data that have utilitarian value. If any data in this report is used by you in any of the categories listed below, please check the box provided. If you would like any other data summaries from the questionnaire (which is in the appendix), do indicate that in the "other" space provided below.

We aim to be helpful and your response enables us to increase the degree of helpfulness.

Thank You

How data used or might be used:

- ☐ Planning
- ☐ Effect curriculum changes
- ☐ Effect support component changes (AV, lab, practica, etc.)
- ☐ Advisement or counseling
- ☐ Budgeting
- ☐ Instructional expectations
- ☐ Instructional behavior or emphases
- ☐ Other (please specify)_____
- ☐ Data not used at all (please state reasons)_____
